

Meet Our Staff

WHERE THEY ARE FROM

Our staff come from all over the United States and the world. We are proud to have a culturally diverse staff that throughout our history has come from more than a dozen countries and growing!

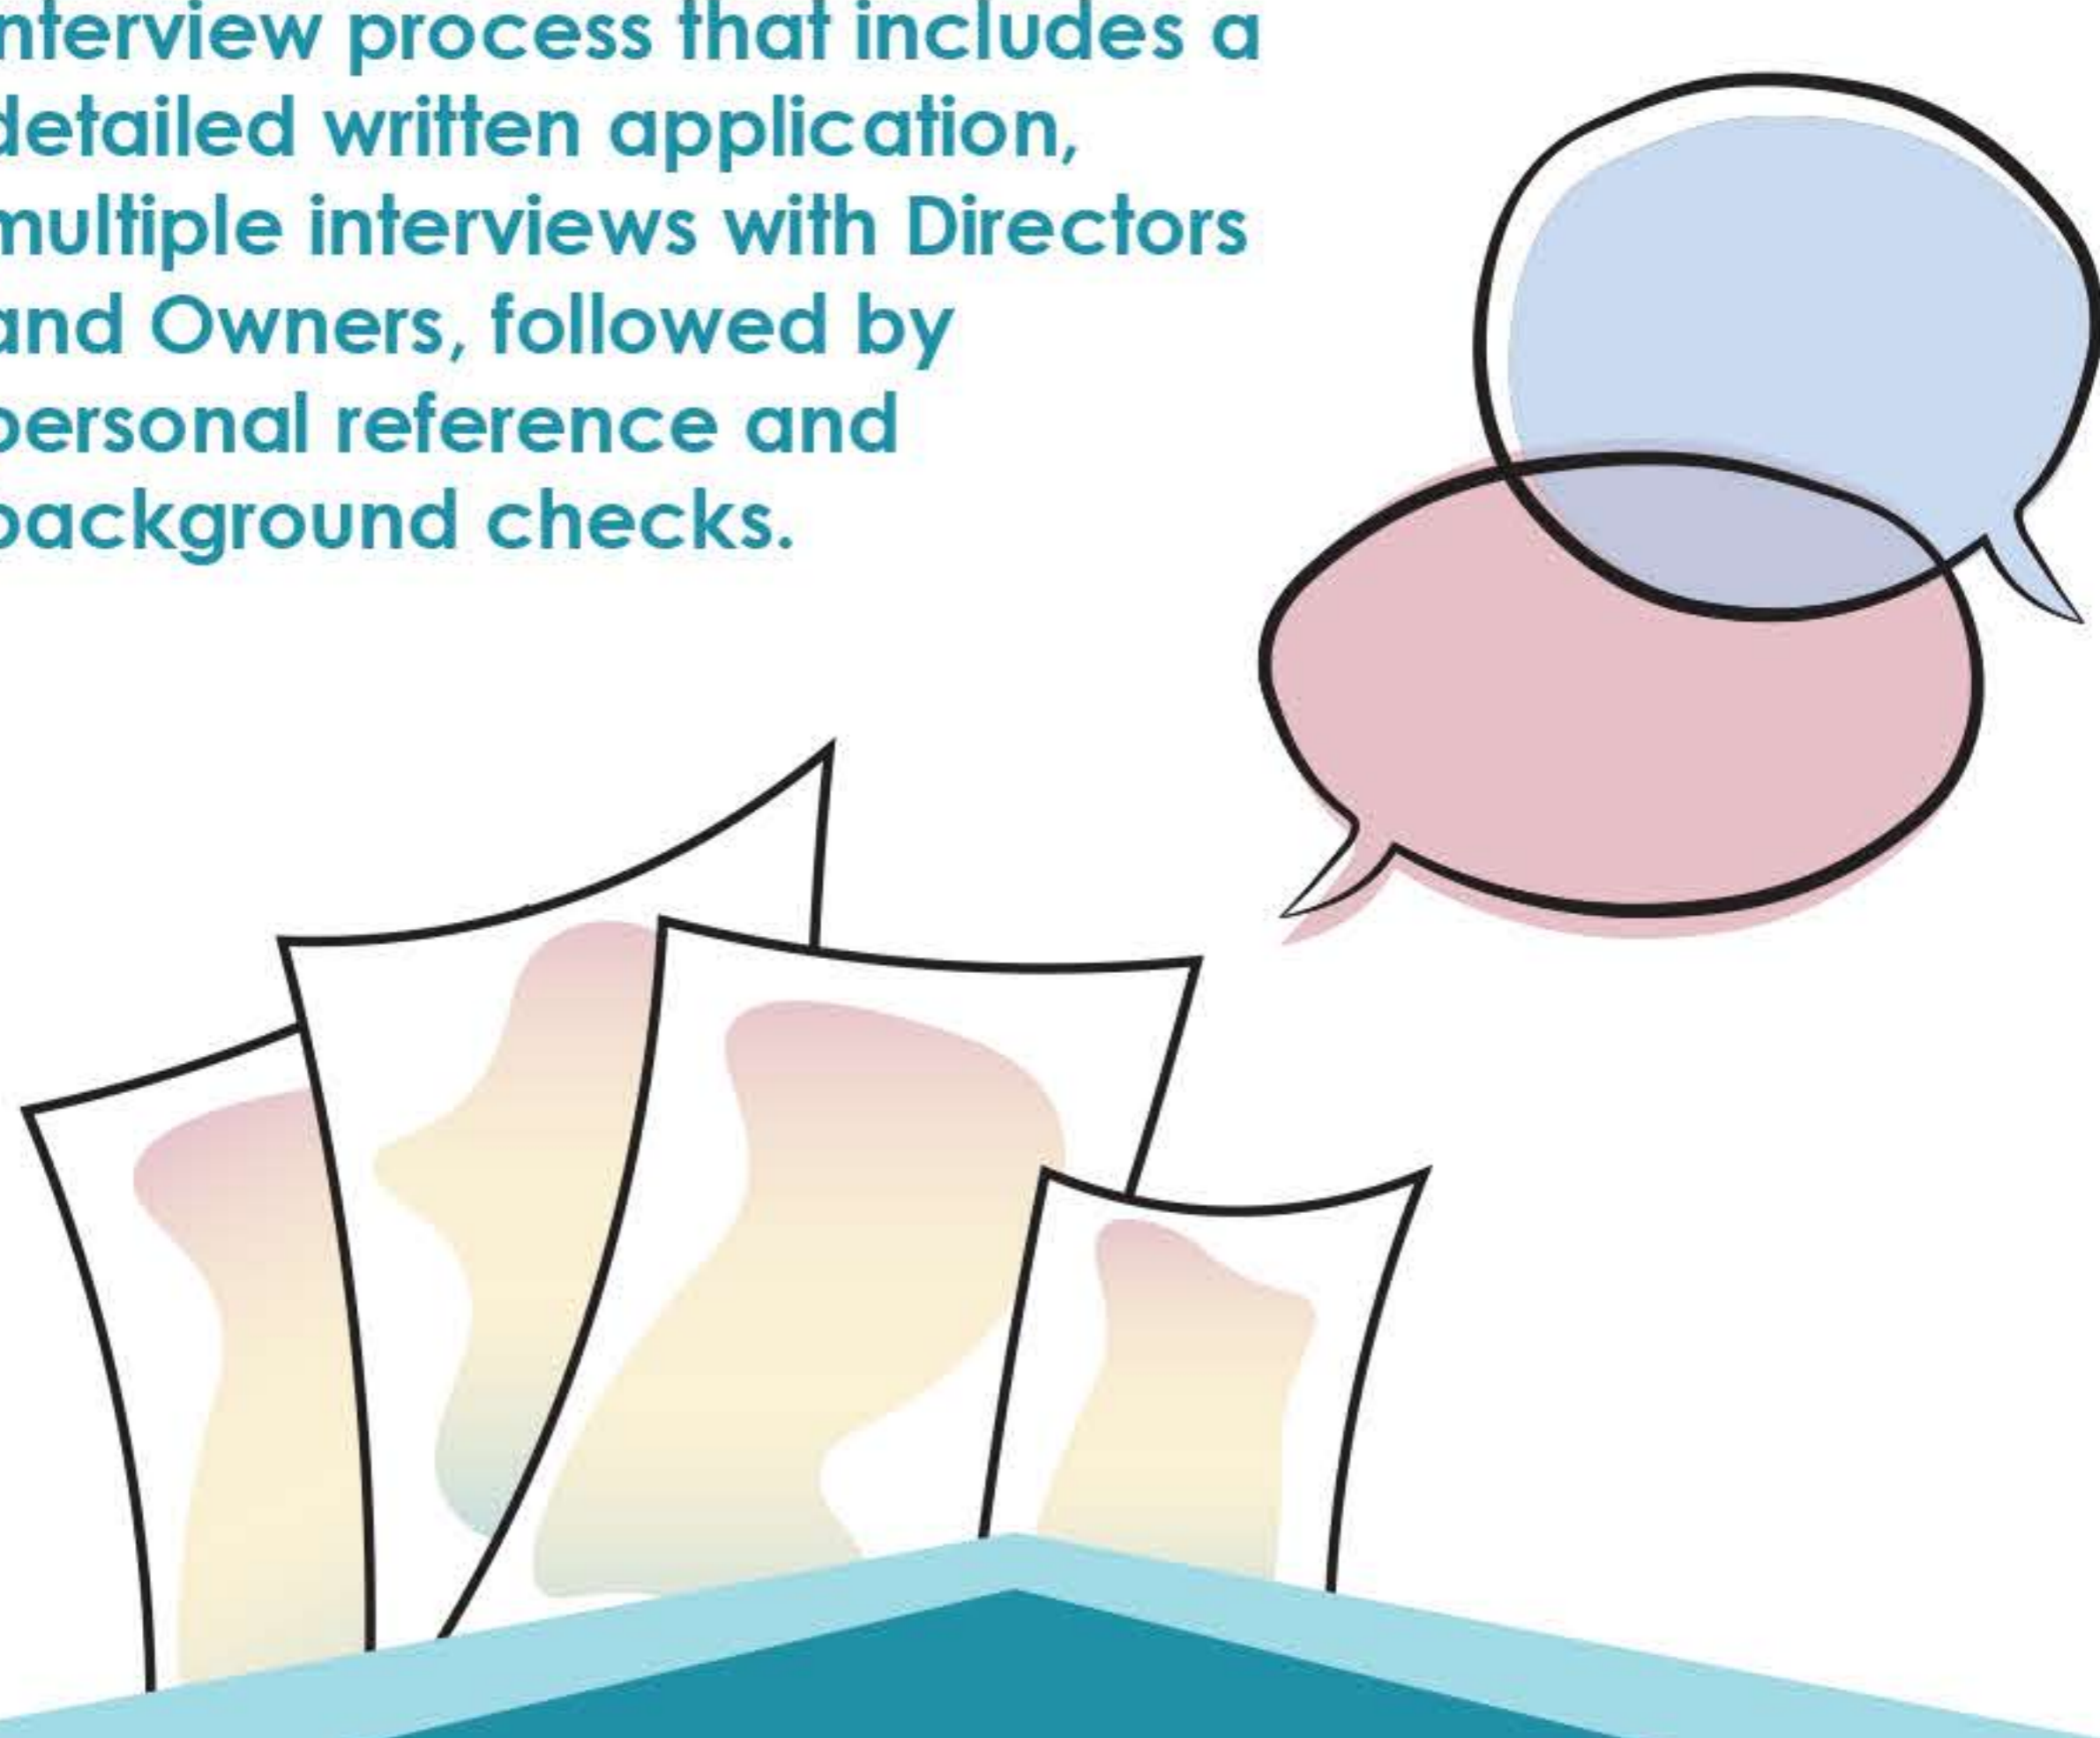

HOW WE FIND THEM

Most of our staff find us. Our amazing location coupled with our wide range of camp activities attracts highly qualified staff from around the globe. More recently, our online content has helped attract team members. For our international staff, we work with reputable recruiting agencies who help connect us with staff from all around the globe.

WHAT DOES THE INTERVIEW PROCESS LOOK LIKE?

Each prospective staff member goes through a rigorous interview process that includes a detailed written application, multiple interviews with Directors and Owners, followed by personal reference and background checks.

LITTLE KNOWN FACTS

Many staff members have found full-time positions working with kids due to their experience working at camp. We've had more than a half dozen staff marriages as a result of meeting at camp.
